

**GOVERNMENT OF INDIA
WATER RESOURCES
LOK SABHA**

UNSTARRED QUESTION NO:37

ANSWERED ON:18.11.2002

RAINFALL

C. SREENVAASAN;SULTAN SALAHUDDIN OWAISI

Will the Minister of WATER RESOURCES be pleased to state:

- (a) whether many parts of the country have received below normal rainfall;
- (b) if so, the names of places State-wise, which had less than average rainfall during the last one year up to August, 2002;
- (c) whether the survey of the Central Ground Water Board has also shown a decline in water level in these areas;
- (d) if so, the details thereof; and
- (e) the steps taken/proposed to be taken by the Government to increase the water level in these areas?

Answer

THE MINISTER OF STATE IN THE MINISTRY OF WATER RESOURCES (SMT. BIJOYA CHAKRAVARTY)

(a) & (b) The State wise list of districts having rainfall below normal for seasons South-West Monsoon 2001, Post-Monsoon 2001, Winter Season 2002, Pre-Monsoon 2002 and June to August 2002 is at Annex-I.

(c) to (e) As per data collected by the Central Ground Water Board (CGWB), ground water depletion has been observed in various parts of the country. The names of the States/districts having pockets, indicating the level of fall between 1982-2001, are given in the Annex-II.

Water being a State subject, it is primarily the responsibility of the concerned State Governments to plan, finance and execute schemes for augmenting water resources. Government of India is also promoting rainwater harvesting through artificial recharge of ground water, roof top rain water harvesting and Watershed Management Programme under various schemes. Others measures initiated by the Central Government to arrest decline in ground water and to harness it are indicated below:-

1. Constitution of Central Ground Water Authority under the Environment (Protection) Act, 1986 for regulation and control of ground water management and development.
2. Circulation of a Model Bill in the year 1970 which was re- circulated in 1992 and 1996 to all the States/Union Territories to enable them to enact suitable legislation for regulation and control of ground water development.
3. Circulation of Manual on artificial recharge of ground water to the States/Union Territories to enable them to formulate area specific artificial recharge schemes to check the declining trend in ground water levels.
4. Implementation of a Central Sector Scheme for Study of Recharge to Ground Water in the country during the IX Five Year Plan at a cost of Rs. 23.48 crore.

ANNEX-1

Statewise list of districts having below normal rainfall

STATE/UT`s	DISTRICT	1.3.02 to 31.05.02	1.6.02 to 31.8.02
